NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS  
June 30, 2017 and 2016  
(Unaudited)  
(Stated in Canadian Dollars)

**Note 1**     **Corporate Information**

Providence Gold Mines Inc. (the “Company”) was incorporated on February 16, 2010 under the Business Corporations Act of British Columbia as 0874036 BC Ltd. It commenced operations in April 2011 and, on December 20, 2011, changed its name to Red Hut Metals Inc. and on July 12, 2017, the Company changed its name to Providence Gold Mines. The Company is in the process of exploring and evaluating its mineral property located on, California, United States and British Columbia, Canada.

On December 11, 2012, the Company completed its Initial Public Offering (“IPO”) and began trading on the TSX Venture Exchange (“TSX-V”). The Company’s trading symbol is “PHD”.

The address of the Company’s corporate office and principal place of business is 750 – 580 Hornby Street, Vancouver, British Columbia, Canada.

**Note 2**     **Basis of Preparation**

a) Statement of Compliance

These unaudited condensed interim financial statements for the Company have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board. These condensed interim financial statements, for the three months ended June 30, 2017, have been prepared in accordance with International Accounting Standard (“IAS”) 34 Interim Financial Reporting, however, they do not include all the information required for full annual financial statements.

These condensed interim financial should be read in conjunction with the Company’s 2016 audited annual financial statements. The financial statements were authorized by the Board of Directors for issue on August 25, 2017.

b) Basis of Measurement

The financial statements have been prepared on a historical cost basis. In addition, these financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

The financial statements are presented in Canadian dollars, which is also the Company’s functional currency and all values are rounded to the nearest dollar, unless otherwise indicated.

(Stated in Canadian Dollars) - Page 2

**Note 2**     **Basis of Preparation - (cont'd)**

b) Basis of Measurement - (cont'd)

The preparation of financial statements in compliance with IFRS requires management to make certain critical accounting estimates. It also requires management to exercise judgement in applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 4 of the Company's 2016 audited annual financial statements. The Company continues to follow the same accounting policies and methods of computation as previously disclosed under Note 3 of the Company's 2016 audited annual financial statements.

c) Going Concern of Operations

The Company has not generated revenue from operations. The Company incurred a loss of \$108,679 during the period ended June 30, 2017, and, as of that date, the Company's accumulated deficit was \$1,437,463. These conditions indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. However, as at June 30, 2017, the Company has sufficient cash resources to meet its obligations for at least twelve months from the end of the reporting year.

As the Company is in the exploration stage, the recoverability of the costs incurred to date on exploration properties is dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete the exploration and development of its properties and upon future profitable production or proceeds from the disposition of the properties and deferred exploration expenditures.

These financial statements do not give effect to adjustments that would be necessary should the Company be unable to continue as a going concern and, therefore, be required to realize its assets and liquidate its liabilities and commitments in other than the normal course of operations, and at amounts different from those in the accompanying financial statements.

**Tuolumne Property**

On March 28, 2017, the Company entered into an agreement (the "Agreement") with 0999940 BC Ltd, a private B.C. company, (collectively the "Assignors") whereby the Company can acquire by way of assignment all of the contractual interests held by the Assignors in various patented and located mineral claims in Tuolumne County, California (the "Property") with a history of gold mineralization in Western California, USA (the "Transaction").

The Property includes six parcels which have been fully patented and are owned in fee simple, and thirteen 20-acre mining claims on Bureau of Land Management and US Forest Service property (260 acres), which include several historic mines and a mill site. The Assignors have also staked a further nine claims contiguous to the existing Providence patented and located claims for a total of 22 mining claims.

*The Transaction*

The Assignors have negotiated the general terms and provisions whereby they can earn a 50% joint venture interest in the Property, or alternatively buy a 100% interest in the Property. To earn a 50% interest in the Property requires the payment, to the Property owners, of US\$175,000 and incurring C\$2,000,000 of expenditures on the Property over the course of three years, and issue 4,500,000 shares of the Company as follows:

- payment of US\$25,000 following regulatory approval (paid);
- payment of US\$25,000 and incurring C\$250,000 of expenditures by March 28, 2018;
- payment of US\$100,000 and incurring an additional C\$750,000 of expenditures by March 28, 2019; and

- incurring an additional C\$1,000,000 of expenditures by March 28, 2020.

Having earned a 50% interest, a joint venture would be formed with the Property owner. Alternatively, a 100% interest in the Property can be acquired for US\$5,000,000, at any time, of which one-half can be paid in shares.

As consideration for the assignment, the Company will assume all obligations of the Assignors to the Property owner and has agreed to pay the following to the Assignors:

- a. Following regulatory approval, the Company will make a cash payment US\$25,000 (paid) and issue 1,500,000 common shares (issued);
- b. After completing the recommended first year work program of at least C\$250,000, the Company will issue an additional 1,500,000 common shares;
- c. After completing the recommended second year work program of at least \$750,000, the Company will issue an additional 1,500,000 common shares;
- d. In the event the Company elects to acquire the Property for US\$5 million the Company will issue an additional 1,500,000 common shares.

One of the Assignors above, accounting for 50% of the cash and share issuances, is a company controlled by an individual who subsequently was appointed director and officer of the Company.

The Property owner will retain a 2.5% net smelter returns royalty, of which 1.5% NSR can be acquired for US\$1,000,000 if the option to acquire a 100% interest in the Property is exercised.

In consideration of their efforts to bring the parties together on the Transaction, the Company issued 230,000 shares as finder's fee, with a further 465,620 shares to be issued after the Company meets its commitments in year 2.

#### **Conuma Property**

On December 15, 2011, the Company acquired a 100% interest in 11 mineral claims located in the Alberni and Nanaimo Mining Divisions of British Columbia, more commonly known as the Conuma Property (the "Property") pursuant to a Letter of Agreement dated May 16, 2011 and as amended December 15, 2011 (the "Agreement"). Under the terms of the Agreement, the Company paid \$5,000 and issued 100,000 common shares with a fair value of \$5,000 to the Vendor. The Company's 100% interest in the Property is subject to a net smelter royalty ("NSR") of 2% of gross revenues from the Property less certain permissible deductions, payable to the Vendor.

During the year ended December 31, 2013, the Company acquired by staking, mineral tenure covering the Norgate prospect, which is adjacent to and contiguous with its Conuma property. The addition of the Norgate claim increases total claims held by the Company to 12 and total hectares to 6,098.

### **Note 3 Exploration and Evaluation Assets - (cont'd)**

#### **Conuma Property – (cont'd)**

Management wrote the costs accumulated on the Conuma property to \$Nil as an asset impairment and continues to expense amounts related to this property. While management still believes that the properties are of merit and warrant continued development, lack of activity due to market conditions warranted a write down under IFRS accounting guidance.

#### **Environmental Protection Practices**

The Company is subject to laws and regulations relating to environmental matters in all jurisdictions in which it operates, including provisions relating to property reclamation, discharge of hazardous material and other matters. The Company may also be held liable should environmental problems be discovered that were caused by former owners and operators of its properties and properties in which it has previously had an interest. The Company is not aware of any existing environmental problems related to any of its current or former properties that may result in a material liability to the Company.

### **Note 4 Share Capital and Equity Reserves**

#### **a) Common Shares**

The Company is authorized to issue an unlimited number of no par value common shares, issuable in series. The holders of common shares are entitled to one vote per share at meetings of the Company and to receive dividends, which may be declared from time-to-time.

No dividends have been declared by the Company since its inception. All shares are ranked equally with regard to the Company's residual net assets.

#### *Issuances for Cash*

On June 1, 2017, the Company the Company completed a private placement through the issuance of 9,600,000 units (the "Units") at \$0.10 per Unit, for proceeds of \$960,000.

Each Unit consisted of one common share of the Company and one quarter of one share purchase warrant (a "Warrant") with each whole Warrant entitling the holder to acquire an additional share for one year at \$0.25 per share. The Company calculated the fair value of the share component to be equal to the market price for the shares on the date of grant, which was \$0.10 per share, and the offering price, which was \$0.10 per unit. The fair value of the shares was equal to the proceeds raised in the private placement and as a result, no amount was allocated as the fair value of the warrants.

An aggregate of 585,200 common shares and 585,200 warrants containing the same terms as the Warrants attached to the Units were issued as finder's fees for the portion of the financing attributable to this finders' efforts. The Company valued these securities at \$0.10 per share with a net value of \$58,520.

**Note 4      Share Capital and Equity Reserves - (cont'd)**a) Common Shares – (cont'd)*Issued Pursuant to Mineral Property Acquisition*

On June 15, 2017, the Company issued 1,500,000 common shares valued at \$0.10 per share pursuant to the Tuolumne Property acquisition (Note 3). These shares are valued at market values on the date of issue of \$150,000 and have been excluded from the statement of cash flows. Exploration and evaluation assets costs include \$150,000 for the fair value of the shares. 750,000 of these shares were issued to a company controlled by an individual who subsequently was appointed director and officer of the Company.

An aggregate of 230,000 common shares were issued as finder's fee to a finder for their efforts to complete this transaction. Exploration and evaluation assets cost include \$23,000 for the fair value of the shares.

*Debt Settlement*

During the year ended December 31, 2016, the Company issued 1,422,850 common shares pursuant to a debt settlement of \$213,428 owed to five creditors, four of whom are directors of the Company. Based on the closing price of the common shares, as at the date of the debt settlement agreements, the Company determined the fair value of the shares at \$184,971 valued at \$0.13 per share. A gain on settlement of \$28,457 was recorded in the Company's profit or loss.

*Reverse share split*

On July 26, 2016, the Company consolidated its 13,900,001 then issued and outstanding common shares on the basis of every two common shares of the Company being consolidated into one new Common Share of the Company, such that 6,950,001 common shares were issued and outstanding as of the record date on July 26, 2016.

Numbers reflected in these statements are post-consolidation numbers unless indicated otherwise.

**Note 8**     **Capital Management**

The Company's objective when managing capital is to safeguard the Company's ability to continue as a going concern, so that it can continue to provide returns for shareholders and benefits for other stakeholders.

The Company considers the items included in shareholders' equity as capital. The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may issue new shares through private placements, sell assets to reduce debt or return capital to shareholders. The Company is not subject to externally imposed capital requirements.

There have been no changes in the Company's approach to capital management during the period ended June 30, 2017.

**Note 9**     **Financial Instruments**

As at June 30, 2017, the Company's financial instruments consist of cash and trade and other payables.

The fair value of the Company's cash and trade and other payables approximate their carrying value, which is the amount on the statements of financial position, due to their short-term maturities or ability of prompt liquidation.

a)     **Interest Rate Risk**

The Company's cash earns interest at a variable interest rate. Because of the nature of these financial instruments, fluctuations in market rates do not have a significant impact on estimated fair values as of June 30, 2017. Future cash flows from interest income on cash will be affected by interest rate fluctuations. Interest rate risk consists of two components:

Notes to the Condensed Interim Financial Statements

June 30, 2017 (Unaudited)

(Stated in Canadian Dollars) - Page 9

**Note 9**      **Financial Instruments** – (cont'd)

a) Interest Rate Risk – (cont'd)

- (i) To the extent that payments made or received on the Company's monetary assets and liabilities are affected by changes in the prevailing market interest rates, the Company is exposed to interest rate cash flow risk.
- (ii) To the extent that changes in prevailing market interest rates differ from the interest rates in the Company's monetary assets and liabilities, the Company is exposed to interest rate price risk.

The Company's exposure to interest rate fluctuations is minimal.

b) Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company is exposed to credit risk with respect to its cash, the balance of which at June 30, 2017 is \$810,628 (December 31, 2016 - \$20,460). As at that date, cash was held at a chartered Canadian financial institution and the Company does not consider the risks to be significant.

c) Liquidity Risk

Liquidity risk arises from the excess of financial obligations over available financial assets due at any point in time. The Company is subject to high liquidity risk due to its current capital deficiency outlined in Note 2. Additional cash requirements could be met with the issuance of additional share capital, however there is no assurance it will be able to raise funds in this manner in the future. As at June 30, 2017, the Company was holding cash of \$810,628 (December 31, 2016 - \$20,460). The Company's trade and other payables are due in the short term.

**Note 10**      **Subsequent Event**

a) Name change and new officer

Effective July 12, 2017, the name of the Company was changed from Red Hut Metals Inc. to "Providence Gold Mines Inc." ("Providence Gold"), a name which appropriately reflects the Company's new focus on its primary property, the Providence Gold Mines in Tuolumne County, California.

b) Private placement

Subsequent to June 30, 2017, the Company completed a private placement, for proceeds of \$145,000 through the issuance of 1,450,000 units at a price of \$0.10 per Unit.
