News Release

Providence Gold to Exhibit 3-D Laser Scan at Silver & Gold Summit

VANCOUVER, BRITISH COLUMBIA - Providence Gold Mines Inc. (TSXV: PHD) ("Providence" or the "Company") announces that the recently concluded 3D underground laser imaging and the underground 3D modeling from surface to depth will be presented live at the upcoming Silver and Gold Summit (the "Summit") to be held on November 20th and 21st, 2017 in San Francisco. Hosted by the Hilton at Union Square, the Summit will gather the industry's top leaders and CEOs, as well as investment professionals and retail investors from around the world.

"We are excited about how this technology has not only confirmed historical results at the Providence Mine, but also distinctly identified extensions to the Providence Vein system," said Ron Coombes, President & CEO of the Company. "We will be at Booth #502 at the Summit and are looking forward to demonstrating the results of this exciting technology to the Summit visitors in San Francisco next week."

The 3-D laser scan survey can also be reviewed online at the Company's website at www.providencegold.com.
