

ROBERT RUNDLE PASSES AWAY

Was Well-Known and Respected Citizen of This County

Many persons in this city and county were grieved last Saturday when information was received that Robert E. Rundell had ceased to exist at his home in San Pedro. While the end was more or less expected because of the lingering disease that had seized him some years ago, yet the dissolution of spirit and body was somewhat sudden to the family as a few minutes previous he had been cheerfully chatting with them.

The remains were brought to this city Tuesday evening and the last rites were conducted in Masonic cemetery by Tuolumne Lodge, No. 8, F. and A. M., to which deceased became affiliated and was a true member for a long time. There were delegations from Eastern Stars and Court, Sonora, F. of A., also a large number of citizen friends who knew and esteemed him to whom they were paying the final testimony of respect.

Robert E. Rundell came to this county in 1872. From that date to the last he ever proved his sterling qualities of manhood by his strict course of honesty in all things he did. He was faithful to every family obligation, true to demands of business, never failing in kindly words and possessed of a temperament that shed a pleasure by its optimism. Pure of mind, good of soul and generous to humanity.

There is mourning his going a widow, daughter and three sons. For them hundreds of friends have sincere sympathy.

Activities in County's Old Mining Industry The Reopening of Several Well-Known Gold Producers Presages Increased Prosperity for East Belt and County

With the entry of the new decade has twenty men employed at the Garfield. Under management of Superintendent Rumbelt. Reliable authority gives us information concerning these few properties:

The Old Providence
The Providence mill has become active in dropping the stamps upon rich ore taken from the three hundred and five hundred levels. There is an abundance of the gold bearing rock, which at present is from the hanging wall. In times past the Providence was in the van with the noted producers of the county and there is no reason to question that it has in its store house other extensive ledges that hold values of millions of dollars. J. F. Bluet is superintendent and The Banner hopes he will reap a bountiful harvest.

The New Albany
The New Albany, operated by W. H. Ingalls et al, of Oakland, will become a field of activity next Monday, unless there be a change in the program. At present it is being promoted by Paul Morris in the interest of eastern stockholders. There is no discounting the worth of the Albany. It has more than once proved it contains a large quantity of gold and its ledge and shoots are not in the least diminishing in worth.

The Black Oak
From the base of the 170 level, in the Black Oak, the shaft is being extended another 200 ft. This celebrated mine is a nation-wide in reputation as a yielder of gold and its ledge and shoots are not in the least diminishing in worth.

Plans have been perfected for beginning work at the Starr King next Monday, under bond of \$30,000 to an eastern company. Present labor will
